

## **Safety & Environment Moment (S&E Moment)**

### **Script 05 – Key Stakeholders or Institutions whose activities or operations border on safety and environment**

Hello! Hello! Hello! good morning and welcome to the S&E Moment.

We have earlier discussed Department of Factories Inspectorate (DFI) and Environmental Protection Agency (EPA) as the government agencies or institutions responsible for Safety and Environment respectively.

Today, let us look at the list of other key stakeholders or institutions whose activities or operations border on safety and environment, and therefore complement the work of DFI and EPA in several ways. They include:

- National Labour Department (Under the Ministry of Employment and Labour Relations)
- Ghana National Fire Service (GNFS)
- Metropolitan, Municipal and District Assemblies (MMDAs)
- Ministry of Land and Natural Resources
- Ghana Standard Authority
- Food and Drugs Authority
- Inspectorate Division of Minerals Commission and a host of other agencies or institutions

The important thing to note is that, the listed agencies or institutions plus others that are not mentioned in this S&E Moment have responsibilities or perform roles that complement the work of DFI and EPA.

We shall discuss the duties of Ghana National Fire Service and MMDAs with respect to safety and environmental management in the next S&E Moment.

Remember to observe the COVID-19 Protocols – regularly wash your hands with soap under running water, always wear nose/face mask, keep a social distance of 2 meters between you and the next person, use alcohol-based hand sanitizers at all times, avoid touching your face as much as possible, and visit the Ghana Health Service COVID-19 website for further information on how to prevent contracting and stopping the spread of COVID-19. Visit the Ghana Health Service COVID-19 website for further information.
